Dear Mr. Eames:

This is in response to your U.S. General Services Administration (GSA) Freedom of Information Act (FOIA) request GSA-2015-000312 dated December 12, 2014, in which you requested:

"Although the GSA did NOT, in non-accordance with 5 USC 552(a)(1)(C) and (3)(A), ever publish "FOIAonline" in the FEDERAL REGISTER as a CODIFIED substantive procedural RULE of general applicability adopted as authorized by the FOIA or ever properly index it for the guidance of the public, I am hereby requesting any and all records of the GSA with respect to the genesis, organization, leadership, administration and execution of "FOIAonline."

In response to your request, GSA selected FOIA Online as an efficient and cost effective solution for FOIA case management. GSA is not required to publish the selection, application and implementation of this system in the Federal Register. The FOIA Online application is a shared service solution that GSA partnered in an agreement with the lead Federal agency, EPA. This application is simply an electronic enhancement in the way GSA manages and processes FOIA requests; it does not change the legal guidance, policies and procedures of how GSA manages FOIA requests.

For additional information regarding FOIA Online, you can go to the website at:

This completes our action on this request. Should you have any questions, please contact Mr. Travis Lewis, at [202-219-3078](tel:202-219-3078) or by email at travis.lewis@gsa.gov.

Sincerely,

Travis Lewis
